Safety Review**

**Tender
Process**

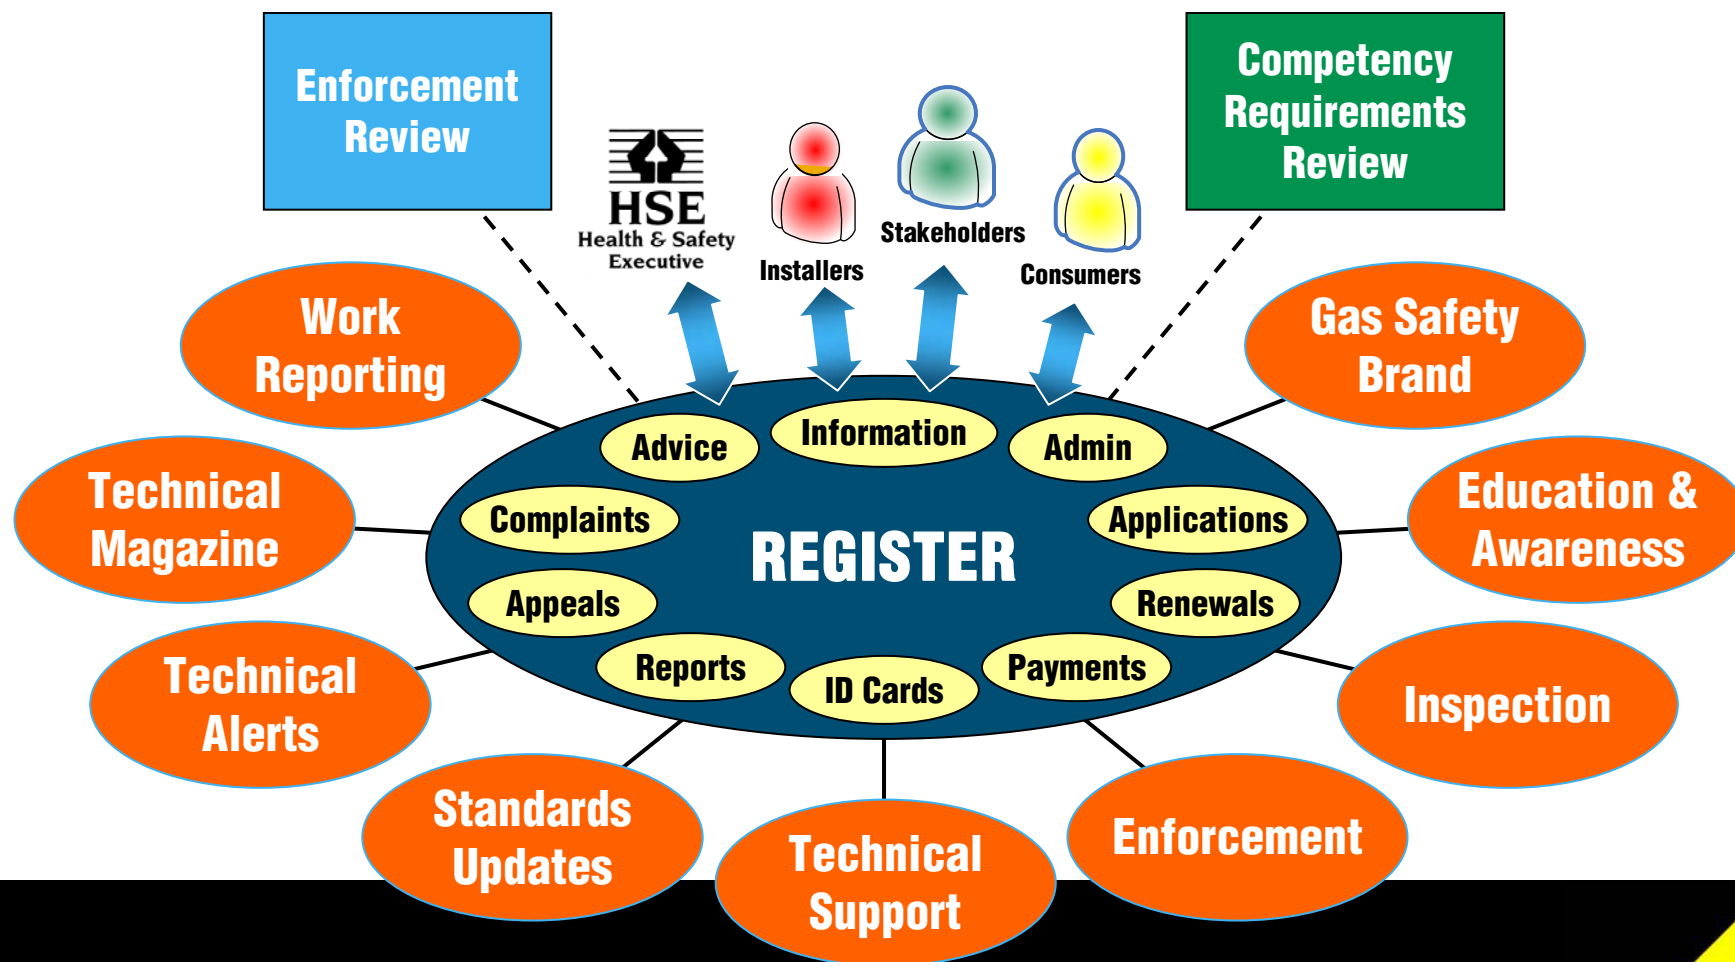

**Contract
Award**

How will Gas Safe Register work?

Service principles

- **Be clear about role and purpose**
- **Focus on gas registration, consumer education, gas safety**
- **Build scheme value through demand – ‘benefit not burden’**
- **Improve consumer safety through education and knowledge**
- **Proportionate – effective, supportive, firm, fit for purpose**
- **Be open and accountable**
- **Listen and consult**
- **Work with others**

How will Gas Safe Register work?

What are the benefits for registered engineers?

- **Renewed and concentrated focus on gas safety**
- **Better educated customers, increased demand for your services**
- **Value for money – all costs reduced, not just headlines**
- **Concerted and ongoing campaign on illegal installers**
- **Flexible monthly DD payment option from 2010 with no premium**
- **12 months service for 12 months money – renewal on anniversary**

What are the benefits for registered engineers?

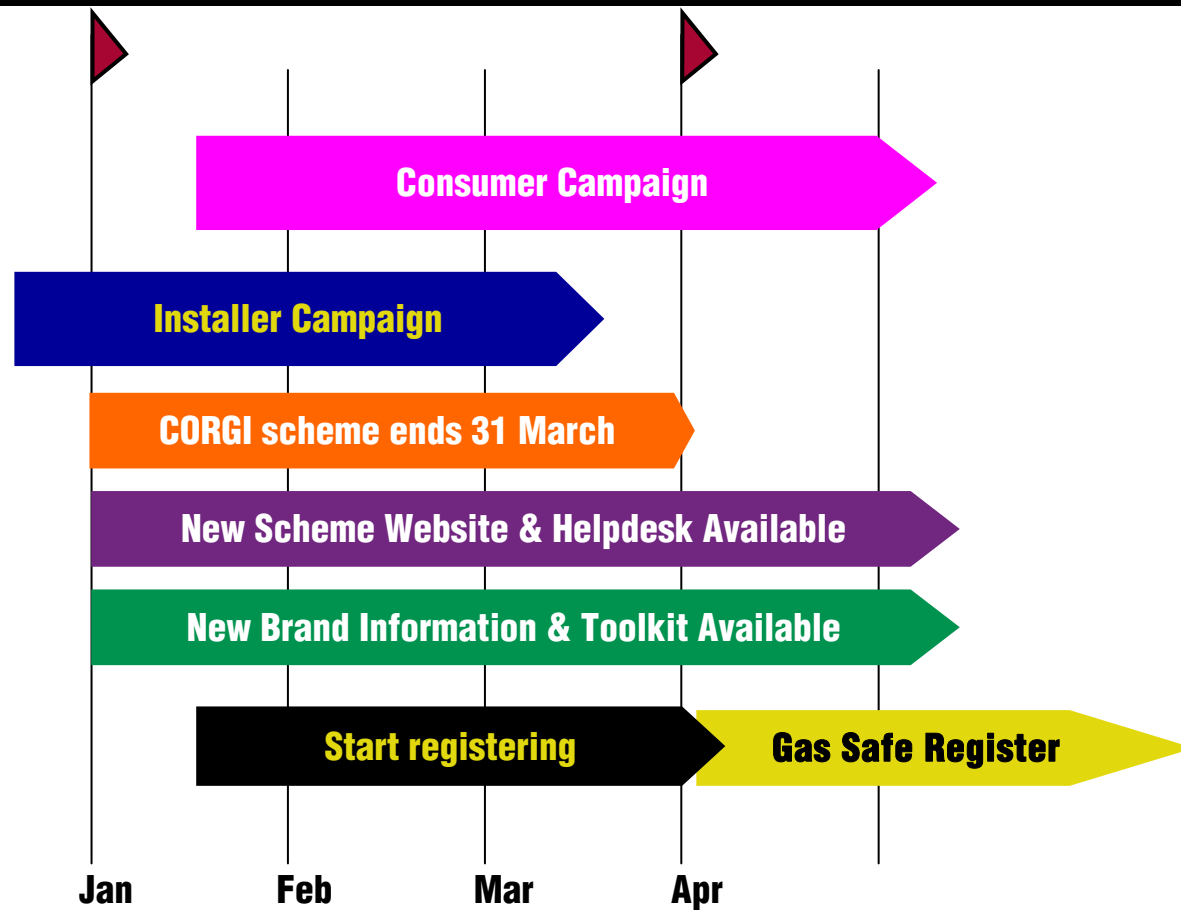

- **Simple application & renewals – full online application, no signature**
- **Mobile friendly standard phone numbers – not 0845, 0870**
- **Inspection and complaints – a fresh approach**
- **Know where you are with standards**
- **Monthly magazine – big on technical content**
- **Consulted on any significant future changes**
- **Keep existing ID number**

What can consumers expect?

- **Friendly, efficient consumer focused service**
- **Gas safety aware – we'll help them understand risks and what to do**
- **Understand value of registered gas engineers**
- **Highly recognisable gas safety brand**
- **Fewer unregistered installers in market**
- **More work inspected in homes**
- **Clear information from 'find an installer' service**
- **'Engineer validation' to give added peace of mind**
