

2018 NHMF Awards Shortlisted: Best customer impact

Creating great properties and places

Curo's community enhancement project is one of the golden threads that runs through all its five strategic priorities aimed at creating great properties and places. All Curo's homes meet "Decent Homes" standard, and it has ambitious plans to achieve Curo's SHAW standard (Safe, Healthy, Affordable & Warm). Curo is therefore redirecting its resources to improve the communal spaces, both internally and externally around its blocks of flats and sheltered schemes. Curo has a 5-year plan to complete these works, and has already seen quantifiable and measurable improvements to the communal spaces and the service to customers and leaseholders on completed projects.

Judges' comment

A fantastic, well-rounded project with very impressive results that has had a real significant impact on wider services and the community.
